

PRP series with cooling capacity range 130-520 kW @35°AMB 7-12°C Water

EC fans

Low charge condenser  
in V configuration

Self-supporting metal screwed  
structure, painted with epoxy powder  
suitably treated for outdoor  
installation

ATEX pressure switch  
with variable setting

ATEX Semi-Hermetic  
reciprocating compressors  
with capacity control system

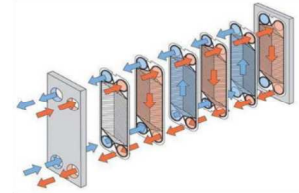

Two independent  
refrigerant circuits

Brazed plate evaporator

SIL2 Refrigerant detection sensor
